

## Overview of Seismic Data Processing

### MODULE

#### About the Skill Module

This skill module explains the concept of seismic processing flow and deconvolution. The skill module also explains what the processors do to produce the seismic image.

#### Target Audience

Geoscientists, engineers, team leaders, geoscience technicians, asset managers, and anyone involved in using seismic data that needs to understand and use this data at a basic level or to communicate with others that use it.

#### You Will Learn

Participants will learn how to:

- Describe processing flow
- Explain the concept of deconvolution
- Identify what the processors do to produce the seismic image

#### Product Details

Categories: Upstream

Disciplines: Geophysics

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 2.5 hours (approx.)

**\$250.00**
