

Reservoir Management

MODULE

About the Skill Module

This skill module brings your attention to reservoir management (RM) at a core competency level.

Target Audience

Engineers or geoscientists who will occupy the position of reservoir engineer, and any other technically trained individual who desires a more in-depth foundation in reservoir engineering.

You Will Learn

Participants will learn how to:

- Retain flexibility in RM without giving up key principles for depletion
- Build flow units critical to RM of an asset
- Describe how the value of an asset is defined; Explain the roles of risk and uncertainty in that valuation
- Evaluate vertical equilibrium and no-crossflow and how to get the most out of each through integrated technologies from multiple disciplines

Product Details

Categories: Upstream

Disciplines: Reservoir Engineering

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 5.5 hours (approx.)

\$395.00
