

Decline Curve Analysis and Empirical Approaches

MODULE

About the Skill Module

This skill module introduces the use of statistical methods in reservoir engineering. A range of applications are described, concentrating on decline curve analysis.

Target Audience

Engineers or geoscientists who will occupy the position of reservoir engineer, and any other technically trained individual who desires a more in-depth foundation in reservoir engineering,

You Will Learn

Participants will learn how to:

- Perform Basic Statistics
- Calculate Decline Curve Analysis
- Estimate Recovery Factors

Product Details

Categories: Upstream

Disciplines: Reservoir Engineering

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 3.5 hours (approx.)

\$395.00
