

## Formation Testing

### MODULE

#### About the Skill Module

This skill module is designed to teach the fundamental aspects of formation testing; increase familiarity with basic formation testing applications; increase understanding of the objectives, techniques, and equipment associated with reservoir fluid sampling; and explicate the role formation testing plays in assessing formation producibility.

#### Target Audience

Production Operations Staff, Reservoir Engineers, Facilities Staff Drilling and Completion Engineers, Geoscientists, Field Supervisors and Managers, Field Technicians, Service Company Engineers and Managers.

#### You Will Learn

Participants will learn how to:

- The basics of formation testing, including important terms and concepts
- The specifics of formation testing applications
- How reservoir fluid sampling is conducted
- The role of formation testing for producibility

#### Product Details

Categories: [Upstream](#)

Disciplines: [Petrophysics](#)

Levels: [Basic](#)

Product Type: Individual Skill Module

Format: On-Demand

Duration: 4 hours (approx.)

**\$395.00**
