

Overview of Seismic Data Processing

MODULE

About the Skill Module

This skill module explains the concept of seismic processing flow and deconvolution. The skill module also explains what the processors do to produce the seismic image.

Target Audience

Geoscientists, engineers, team leaders, geoscience technicians, asset managers, and anyone involved in using seismic data that needs to understand and use this data at a basic level or to communicate with others that use it.

You Will Learn

Participants will learn how to:

- Describe processing flow
- Explain the concept of deconvolution
- Identify what the processors do to produce the seismic image

Product Details

Categories: Upstream

Disciplines: Geophysics

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 2.5 hours (approx.)

\$250.00
